 Planning your landscape planting is a very easy matter; just take a little time to study our catalog "LANDSCAPE VIEWS" and different designs. Place your shrubs in zig-zag formation and bear in mind the taller growing varieties for back grounds, etc. The rough sketch shown below, gives you an idea how to get at it. If you wish send us your drawings and we'll be glad to make suggestions by making selections as to varieties, so as to make a blending, pleasing effect when in bloom and foliage. Send 10¢ for LANDSCAPE BOOK (this will be refunded when order is received). This gives many pictures in colors and effective plantings with a full descriptive catalog on all leading varieties.

We sell 25 of one variety and size at the hundred rate.  
 Send in your order today with 25% deposit; we will then  
 reserve the bulbs and ship when you want them for planting.
